## Case Facts

The CAC team is contacted by a school counselor who says that she believes that a student has been molested. The student and mother come to the CAC for the interview, resulting in the following information:

Pam (age 7) said that when she and her sister Lisa (age 3) visit their father, he does "bad things to them." He tells them not to tell anyone because they'll never get to see him again.

Later during the interview, Pam she discloses that she's been fondled vaginally.

Pam also tells you that she has seen Lisa go into daddy's room with the door shut, but does not know if Lisa has been touched.

Pam's mom, Susan Smith says that she's been divorced from her husband, Sam Smith, for about three years. Sam Smith lives within your jurisdiction, and has visitation with the girls every other weekend. Susan has been living in your jurisdiction with her boyfriend, Joe Jones, for the past six months.

Susan Smith indicates that prior to her divorce from Sam, they frequently had loud verbal arguments and she was hit, but that the children never saw this.
